

Plan Arovista Dedication Ceremonies September 7

Over 300 Brea youngsters will step into one of the nation's most modern, best-equipped schools come September 11.

Dedication ceremonies of Arovista Elementary School will take place beforehand when District Superintendent Vincent E. Jaster, school board members and Brea Boy Scouts participate in a short program Friday, September 7, at 7:30 p.m. Herbert E. Barlow, school board president, and Mrs. June Hendricks, board clerk, along with members Harvey N. Winchel, Don U. Shaffer and Melvin A. Fuller will receive the school on behalf of Brea. The public is invited and welcome to inspect the new educational plant. Open house will follow the ceremonies.

Functional Planning

Built at a cost of \$359,000 by the architectural firm of Smith, Powell and Morgridge, and contractor B. L. Metcalf, Arovista is a model of functional school planning. A row of eight class-

rooms lines each side of a central wall which runs the length of the building. Each of the 16 classrooms has closets, forced air circulation, darkening facilities for movies, opaque window panels and an inter-phone system.

Two kindergarten units near one end of the double row of classrooms complete a T-shape Arovista School. These units have heated floors and new custom-size furnishings. A toy-supply shed stands in the private kindergarten playground.

Any steamed up Arovista student who must report to the principal will have a chance for a breath of fresh air and outdoor meditation en route to headquarters. There are no interior corridors.

Hot lunches will be prepared in the Laurel School cafeteria and delivered to Arovista students by a special kitchen-truck.

On a 15-acre site, Arovista is constructed for a capacity of 800 students.

(Romar Photo—Brea)

Despite Increased Enrollment Elementary Schools Face With Double Sessions

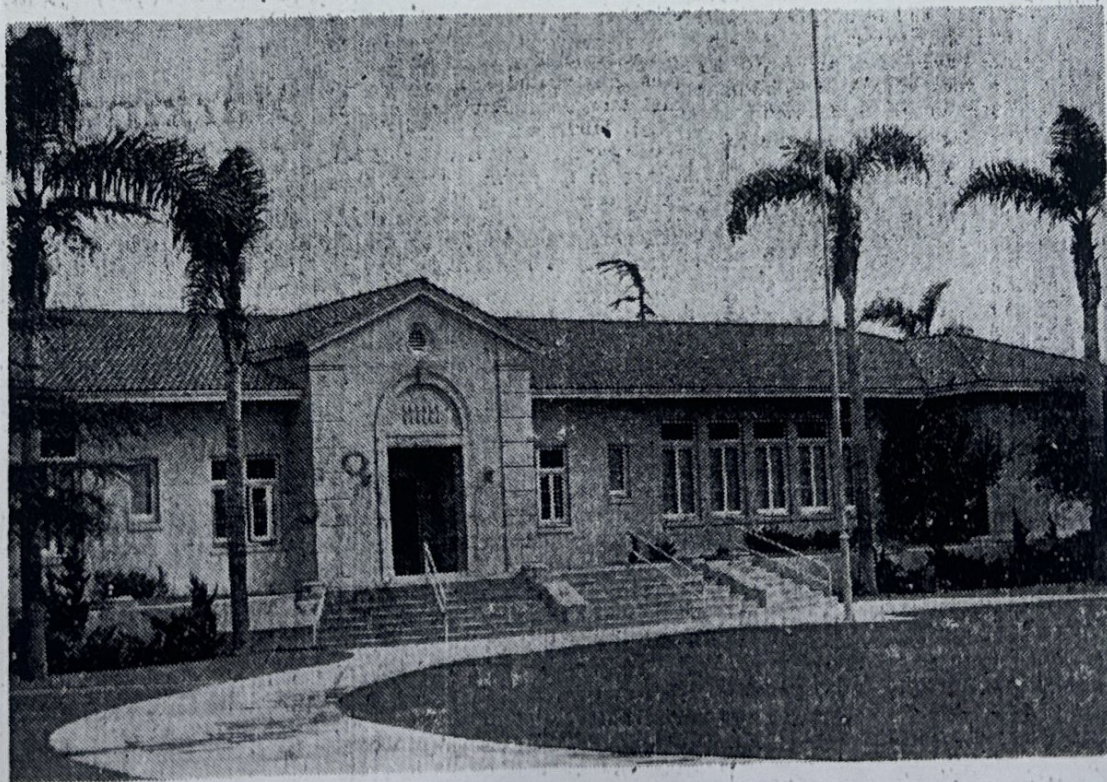

Brea elementary schools will away with double sessions this year, says Superintendent Vincent E. Jaster. Because of opening of the new Arovista School, in addition to excellent facilities at the Junior High and Laurel schools, there will be no congestion.

A top notch maintenance program has given the schools a thorough going over, reports Jaster, and equipment and supplies are ready and waiting.

Jaster expects over 1,125 students on September 11, an increase of almost 100 over last year's total. This 10 per cent growth has been steady over the past four years, he says.

Pre-opening activities include registration of new students at three elementary schools September 4 through 7, from 8:30 a.m. to 12 and 1 to 4 p.m., and a series of faculty meetings on the same days.

Elementary teachers will meet on the morning of September 4 for introductions and an explanation of educational policies. Superintendent Jaster. Following this, and a noon luncheon with teachers and board members at Jaster's home, the teachers will re-assemble in their respective

CITY ORDERS PURCHASE OF CAR FOR POLICE DEPARTMENT

Purchase of a new police car was completed by the city council when it met Monday night. The car, a 1955 Chevrolet, will be delivered in about three weeks by the Daugherty Chevrolet agency for a cash cost of \$1551.

An allowance of \$750 was made by Daugherty for a 1952 Oldsmobile which the city will trade in. Extra equipment on the new car will include heater, spotlights, oil filter and automatic transmission.

Car dealers present at the meeting were John Daugherty, J. W. Burch and J. Grey Korn-

bacher. Four bids were received on the police car purchase, and an offer of lease deal whereby the city would pay six and one-half cents a mile for use of a car was also considered.

The council did not accept the low bid on the police car. The low bid was \$1507 for a Pontiac.

One councilman expressed the opinion that the city would gain more in operating efficiency and trade in value with the Chevrolet. It was believed these savings would offset the initial cost difference in the two cars, the councilman stated.

Clearing of Trees Next Job at New School Site; Plans Being Readied

It was decided to advertise for bids for the removal of trees on the new 14.7-acre Arovista school site south of Imperial Highway when the Brea Elementary School District board of trustees met Monday night.

Architects Marsh, Smith and Powell are now working on the plans for Brea's third elementary school. It will consist of 16 classrooms, two kindergarten classrooms, cafeteria and multi-purpose room, offices, and complete playground and parking facilities.

The school site will be one of the most beautiful in the state, according to Vincent Jaster, elementary school superintendent.

It is expected that the contract for construction of Arovista

school will be let by April, 1955. Probable completion date is anticipated as November, 1955.

Turning to other business, the board of trustees hired two women as part time bus drivers, the first females ever hired for such a job in the district. Selected for the positions were Mrs. Ruth Ingalls and Mrs. Edna Makins.

Women bus drivers have a very commendable record in safely transporting school students, the board learned from the California Highway Patrol.

Meetings of the Brea Elementary Board will be held on the second Wednesday of each month in the future. They were previously slated for the third Monday of each month.

Folklore of Yugoslavia Shown Club By Husband-Wife Lecture Team

"The Heartbeat of a Nation," a lecture-demonstration program by Kenneth and Corene Boettcher, was given Tuesday evening at the Women's Clubhouse for the combined Junior and Senior club meeting.

Mr. and Mrs. Boettcher have traveled extensively and in this particular program told of their visit to Yugoslavia. Colored slides were used to show the lovely countryside and the very interesting people, who, in trying to preserve their ancient folklore, have continued to dress, sing and dance much as their ancestors. The native costumes were displayed and many songs and dances were demonstrated by the husband and wife team. Having actually lived with these people, their program contained a "personal" touch, leaving the audience with a "having been there"

Holiday Causes 50-Car Drop In Orange Sales

Lighter arrivals plus the Veterans Day holiday which was observed in many markets of the country reduced sales of Southern California Valencia oranges during the week ending November 13. Sunkist Growers sold around 550 cars of valencias during the week, 50 less than the previous week, but improved prices on good quality fruit pulled the average up 30c to the level of \$3.90 a box f.o.b.

The light remaining supplies of valencias will be shipping during the coming week.

Initial prorate governing the 1954 crop of California-Arizona

10 Turkeys Offered by Merchants

Ten free turkeys and many other valuable gifts will be given away by the merchants' division of the Brea chamber of commerce Friday night. The drawing for the gifts will be held at Daugherty's used car lot at 7 o'clock.

Tickets for the drawing may be obtained from practically all Brea merchants this week free of charge. It is not necessary to make a purchase, simply ask for turkey tickets.

The list of merchants taking part in the promotion is printed in an advertisement on page three of this week's paper.

According to the plans made by the merchants' committee, two names will be drawn for each turkey and the name first drawn will be allowed to claim the turkey until Saturday noon, after that time the second name will be eligible.

F & W Market Starts Remodeling Work

Starting an extensive remodeling job, F & W Markets this week has had its newly-acquired market repainted on the parking lot side.

On the inside, a new refrigerated produce case has been put into use. The produce department is being relocated in the rear of the store to make it more convenient for servicing by the clerks.

Other changes will be made every day in the market to create a more pleasant place for customers to do their food buying, the management has indicated.

Club Speaker to Tell About Firm's IBM Use

Jack Mott of Hunt's Foods will be the guest speaker for the Brea Kiwanis Club meeting at the Women's Clubhouse Friday. He will explain the extensive use of IBM machines in Hunt's office.

Purl Harding will be program chairman for the day. The club meets at 12:10 p.m.

McMechan Stops Tustin Offense; Scores for Brea

Instrumental in Brea-Olinda High School's upset 18-13 win over Tustin last Friday, Left

sewer work in the southern city on Walnut Streets and Pomona Avenue. Garden Grove man's bid for \$12,534.

A total of ten bids received, ranging from \$12,534 to a high of \$20,000. Engineer Sid Lowry's bid was the lowest. The cost of the work was estimated at \$15,000.

Barnett will be required to install 2939 feet of eight-inch pipe. The pipe will run from Walnut Avenue, south of Street to the outfall on the west side of Pomona south from Fir to the sewer; and along Academy from Pomona to an extension line. Work will be completed in about 10 days, it is believed.

Residents of the area where the work is to be done will be required to move their cars from the job through an adjacent district.

The houses have been equipped with cesspools in the area where the sewer job is installed.

Early Pa

Next week, because of Thanksgiving holidays, Brea Progress will be published one day early, instead of Wednesday. This will make it possible for subscribers to have their papers on Wednesday. They will have time to refer to the Thanksgiving ads for last week's Progress.

It will be necessary to adjust our deadlines up 24 hours for advertising display ads to be in by Monday night. Classified ads by Tuesday and society news items will be turned in to Soc Jean Carver by Monday.

The Progress will continue to rely on the cooperation of our advertisers in the early deadlines.

C. C. Asks For Prom

Stating that city publicity for public works should be brought up to date, the chamber of commerce has asked for a grant of \$500 for a council Monday night.

The request was made by Purl Harding, chairman of the chamber of commerce.

The council has approved the \$500 for advertising during the present year. But it was decided to let the chamber of commerce determine the exact amount of money needed before making a final request for it.

Eight Girls In

Male kindergarten teachers break new ground

By Steven Creech
Staff Writer

Like promises, some would argue, stereotypes are made to be broken.

But unlike a broken promise, there is always something positive to come from ending ill-conceived notions that are no longer valid in today's world.

Dan Maguire and Brian Saul have the distinction of being kindergarten teachers in an area that traditionally has employed only women.

Saul, who teaches a bilingual class at Arovista Elementary School, was selected this year as Brea's teacher of the year. He has been a kindergarten teacher at the school for eight years.

"I think we're the only (male) kindergarten teachers in the district, and I know there are very few in southern California," Saul said.

He believes more men would enter the field if not for mental barriers they place before themselves.

"Maybe it's possible that some men think they can't do it because the kids are so small," Saul said, sitting in the Arovista teachers' lounge on Halloween, wearing a bee costume.

"Actually, we need more men in the lower grades because there are so many one-parent families these days, and (they) need a male role model."

For Maguire, a student-teacher last year at Arovista, this is his first-year as a kindergarten teacher. The enthusiasm of children in the primary grades was the impetus for his decision to teach.

"There is a lot of growth at this age," he said. "They go in babies, and when they go out, they're functioning people."

Staff photo by Gary Gossett

A different perspective: Brian Saul and Dale Maguire of Arovista Elementary School in Brea, are kindergarten teachers who each add their unique style of teaching at the school. Saul was selected recently as a nominee for Orange County's 1991 Teacher of the Year.

He also agreed that the early appearance of male role models was important.

"I don't know why they have to wait until fifth or sixth grade to get a male teacher. I think it's important they learn things from both genders."

Maguire said Saul's residency at the school made the transition to working with very young people easy.

"We try not to think of this as something special or different," he said. "The kids don't think that, so we try to teach it just as a job that people do."

Saul said that once people get over the initial surprise of having their son or daughter taught by a man, it becomes business as usual.

"Most people probably remember

Educator leaves mark on district

By Pamela Krebs
Staff Writer

Mark Goldband will not only be missed as a teacher and administrator for the Brea Olinda Unified School District, but his impact will be felt long after he transfers to Magnolia Junior High in Chino after serving the district for 22 years.

Goldband looked forward to being principal of Magnolia Junior High, and said he foresees a positive future, "It will be a good experience."

Prior to starting the new assignment two weeks ago, he said he planned to do everything he could to be an asset to the district by being supportive and helpful.

"I will support all the good things already in succession and where support and leadership is needed, I'll be glad to do that."

His overall approach to reaching children is providing a safe and caring environment overlaid with a veneer of good curriculum in order to develop a well-rounded child.

Just short of shy, he commented on his reception at Magnolia, "They're gonna love me. I am a tremendous administrator and leader of schools.

"My greatest accomplishment is putting together resources and people."

That might explain why Arovista ranks 50th in the state as one of the top elementary schools.

"In the six years of my administration at Arovista, we've enjoyed being among the top elementary schools in California."

Goldband attributes much of his success at Arovista to the upgrading and hiring of his teachers.

"It makes a difference when you get to hire your own teachers," said Goldband.

He also cited the district's sense of oneness as a positive thrust in the program, "The teamwork is exemplary."

Goldband was distinguished as a "hands-on" teacher. Some of his class projects included building missions, panning for gold, herding cattle, and taking the legs off desks in the classroom to be able to sit on the floor while studying Japanese culture.

"I tried to make kids enjoy the life and times of those before them."

The lunch time elective program was in part a creation of his. During lunch, students go to labs to get extra help with science, foreign language, art or participate in athletics.

"It keeps them out of trouble at the same time expanding their horizons."

While at Brea Olinda Unified School District, Goldband also taught at Mariposa and William E. Fanning elementary schools and at Brea Junior High School.

Goldband has enjoyed teaching science and mathematics most during his career, although he was a history major at Cal State Fresno.

He continued his education at Cal State Fullerton acquiring a teaching credential, and received a master's degree and administrative credential from Pepperdine.

He said he would like to be remembered as an enthusiastic, dynamic and cooperative person.

March 1986

"AROVISTA"

The Union Oil Company purchased 1200 acres from the Stearns Ranch Company in 1894 and began producing oil in the Brea area. The property where the Arovista School is located was purchased by the Union Oil Company after the disastrous 1926 tank farm oil fire.

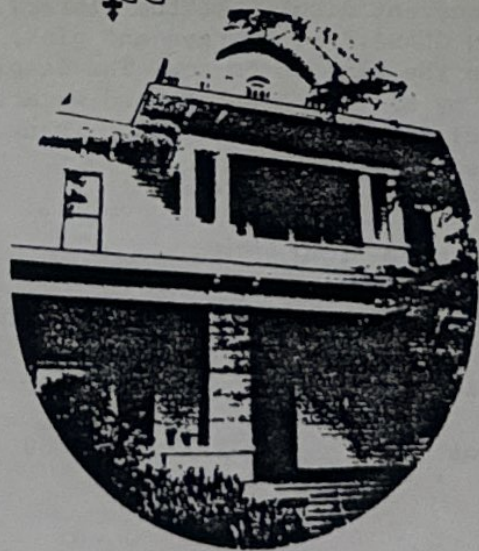

Because Union Oil Company owned considerable land suitable for citrus, it and the Bastanchury family entered into a lease agreement so that citrus could be planted. This joint venture was known as the Union Citrus Orchards and included 2500 acres. Later, the Bastanchury family lost the lease to the Times-Mirror Company of Los Angeles, which operated the orchards until 1940 when the orchards were turned back to the Union Oil Company and, in time, were liquidated.

One of the transactions at this time was selling 460 acres and leasing an additional 60 acres to Brea Groves, Inc. Ten partners divided the acreage into individual ownerships. It became necessary to form a mutual water company. The company needed a name, and several were suggested. Mr. C. E. Dunbar, a partner, liked the name of his cottage in Laguna Beach, Arrow-Vista, probably for the view it afforded. This name was shortened to "Arovista" and was officially filed with the Secretary of State as the Arovista Mutual Water Company on June 23, 1942. The company office was located just west of Berry Street on Imperial Highway.

As part of the apportioning into individual ownerships, five persons were deeded an undivided interest in the property south of Eadington Drive and east of Puente Street, which became known as Loma Ranch, consisting of 45 acres of citrus and 30 acres of unplanted barranca land. The Loma Ranch was later divided among its partners. One partner, William L. Houghton, received approximately 14 acres as his portion. He later sold it to Robert L. Brokaw who in turn eventually sold to the Brea School District, where the present Arovista School is located.

Elect Members To School Board

May 23.—Friday's school board elections produced two new members for the Brea Elementary School Board as incumbent trustees chairman Leslie Slauter was defeated in his attempt at re-election while unopposed Harold Carver was given a token 393 votes to retain his high school board position.

Mrs. June Hendricks and Melvin Fuller were the successful candidates and will take over their duties effective July 1. Fuller polled the highest count with 301 votes with Mrs. Hendricks accounting for 275.

Mrs. Winifred Waggener was third with 1888 votes and Slauter trailed with 150 as only 450 plus voters turned out for the election.

Slauter is finishing his ninth year on the elementary board and is a member of the present high school trustee group.

New Associate At Ralph Barnes Insurance Office

May 23.—Ralph Barnes of the Ralph E. Barnes Insurance, announced this week that Doug Tripp, insurance analyst and counsellor, will be associated with him in his Brea office.

Barnes said his business had developed to the extent that it is important for him to have an associate in the office with him to better accommodate his insurance customers.

highway development beyond this point will offer an improved route from the Canyon road towards Pasadena.

Engineer McCoy was requested to communicate with the Board of Supervisors of Orange County and the City Councils of Santa Ana, Orange, Placentia, Fullerton, Anaheim and Brea regarding the necessity for the highway commission to hold a public hearing before taking further action to adopt freeway routings.

Brea 20-30 Club Ends First Year of Group Activity

May 30.—Members of the Brea 20-30 Club celebrated the group's first anniversary Saturday night with a dance given by their sponsoring organization, the Orange 20-30 Club.

Highlight of the evening was the presentation by the Orange members of an anniversary cake commemorating the first year of Brea's participation in 20-30 activities.

Sunday morning the Anaheim Club held their annual May Picnic to which all the clubs in Orange County were invited. A baseball round robin tournament was held with Orange retaining its title by winning over Newport Beach, Garden Grove and Fullerton. Brea was edged by Garden Grove in a high scoring contest, 19-17.

School Boards Name Officers

Highway Plan May Divide Brea

Aug. 8.—A city divided would be Brea's plight should a plan prepared by Orange County Road Commissioner A. S. Koch be fulfilled according to city administrator A. W. Studebaker at the Monday night meeting of the Brea city council.

In a plan received by Studebaker the county proposes to widen Imperial Highway, from Highway 30 to Yorba Linda, to 142 feet. This would virtually mean a fenced freeway running through the middle of the city.

For the past several years Brea has been in contact with the State Highway Department and all planning has been based on a 100 foot width.

Brea had not been contacted by the county on the measure prior to presenting the proposal and in a letter prepared by Studebaker and authorized by the council it states that the county is guilty of definite "poor planning."

Brea City Attorney Burned in Mishap at Barton Flats Cabin

Aug. 22.—Harold McCabe, Brea city attorney, is being treated for second and third degree burns at St. Joseph's as a result of an accident with a gasoline stove during a stay at his mountain cabin at Barton Flats.

McCabe was preparing to light the stove to fix breakfast for his wife, daughter and son-in-law when the flames burned his face and upper parts of his body.

His condition is listed as "satisfactory." McCabe is also part-time city attorney for La Habra as well as having his own prac-

Controller is only a small portion of the taxes that will eventually be collected on April transactions because most retailers report their sales tax liabilities only once a quarter.

Arovista School Opens Friday

Sept. 5.—When the Brea schools open for class Tuesday, September 11, there will be new doors opening with the completion of the modern Arovista School.

Official dedication ceremonies will be conducted at the new plant on Friday evening, September 7, at 7:30 with an open house following. The general public is invited to attend the dedication program and to visit one of the most modern, well-equipped schools in the nation.

Foursquare Burns Note

Oct. 10.—Sunday, October 7, was a great red letter day in the history of the Brea Foursquare Church as they witnessed the burning of the note, which makes their church (the entire plant valued at \$107,800) completely free of debt.

Just four years ago, October 5, 1952, the church was dedicated to the Lord and it has made steady progress each year with this being the banner year.

Dr. N. Van Cleve, District Supervisor of the Southwest District of the International Church of the Foursquare Gospel, officiated at the noteburning service and gave the morning message. He

Junior Breans Shoot Straight

Oct. 31.—The distaff side of the junior shooting fraternity proved themselves true amazons at the Brea Juniors registered tournament held at the Brea range, Sunday, October 28. Participating with the largest group ever to fire on the Brea range the girls not only won every match but set seven National marks during the day.

Brea Gives No on 7 Ballot Issues

Nov. 7.—Brea voters clearly rejected seven propositions on the initiative portion on the ballot at Tuesday's election. The vote against Proposition 4 was nearly seven to one against. Here were the tabulations on the seven propositions voted down locally:

No. 4, Oil Conservation, yes—352, no—2,197; No. 5, Sale of Alcohol, yes—796, no—1,574; No. 7, Chnge Assembly Name, yes—948, no—1,079; No. 8, Legislative Budget, yes—916, no—1,030; No. 9, County Boroughs, yes—653, no—1,268; No. 10, State Contracts, yes—891, no—1,191; No. 18, Inferior Court Judges, yes—785, no—1,176.

Brea voters passed all the other propositions with a yes vote, according to virtually complete tabulations.

Union Oil Accepts
\$9000 Bid for
New School Site

The Union Oil company has no-
 tified Mayor Charles McCart that
 the city's \$9000 bid for a 9-acre
 school site has been accepted.
 In a phone call from the board
 of directors, the company said that
 the property on the West end of
 Elm between Elm and Fir will be
 turned over to the city as soon as
 engineers have determined what
 drilling site the company wants.

The city has no use for the pro-
 party, and it will be used as an el-
 ementary school site. The city
 will, however, build a Youth build-
 ing on a part of the land that can-
 not be used for school purposes.
 City council had first submitted
 a bid for \$7500 for the land early
 in July. This bid was turned down
 and a substitute bid of \$1000 an
 acre was offered.

Mrs. Adeline Seymour of Seat-
 tle, Wash., topped by Friday on
 her way to Texas to visit Jack Col-
 lins, 314 West Birch. They are old
 friends.

These huge tanks provide the fuel and lubricating oils necessary for
 the engine lab at the Union Oil research center to operate. Fluids
 are piped directly into the engines, and their flow is controlled and
 measured by instruments which run constantly.

"Radar cannot do the job alone
 Radar is limited because it cannot
 see below 5000 feet or in areas
 blacked out by hills or mountains.
Corps Important
 "In the event of future aggres-
 sion against our nation the fate of
 an entire municipality may de-
 pend upon the alertness of a single
 member of the Ground Observer
 corps. A flight of hostile aircraft
 crossing our border at low altitude
 might approach unnoticed, but for
 the warning of volunteer observ-
 ers.

"Once spotted by the observer,
 the information necessary to di-
 vert or annihilate the airborne en-
 emy would begin to flow through
 the air defense system.
Flash Warnings
 "Interceptor aircraft would
 climb into the skies and air raid
 warnings would be flashed to cit-
 ies in the path of the attacker."

Volunteers must be between the
 ages of 17 and 70, have excellent
 hearing and vision, and be Ameri-
 can citizens. Fifty hours of train-
 ing are given to those accepted.

Rentz Does \$4300
Business in Day for
Record of Career

Bill Rentz, owner of Rentz Fur-
 niture company, had his biggest
 day in eight years of business
 Monday when he sold \$4300
 worth of merchandise.
 Rentz, who had his grand open-
 ing three weeks ago after moving
 his store from La Habra to 101
 South Pomona, sold \$1700 in fur-
 niture to one customer, \$1800 to a
 couple, and \$850 in carpeting, and
 others. Some of the people were
 from La Habra and Fullerton.

He had his store open until 11
 p.m. taking care of the customers.
 An empty building at 105 North
 Pomona has been rented by Rentz
 as a used furniture annex.

Some of the credit for his suc-
 cess, Rentz says, should be given
 to his advertising in the Brea
 Progress.

practical testimony of the active good citizenship of that community. Since our town is saturated by the more than 25 organizations in it, a coordinating council is the only way to objectively air the specific views brought up by the individual organizations. This, in turn, will result in the most workable plan of action and completion of the project.

As Brea YMCA coordinator, the building of a community center would have a direct affect on my interests and job. It is for this reason that I write you in support of your efforts to bring this to reality. While we have a number of organizations devoted to enriching the abilities and character of our youth through group work, they are hamstrung by the lack of a suitable place to meet. As yet, they must use facilities designed for adult interests or special services. The YMCA is appreciative of being able to use these facilities, but we do not hesitate to advertise the potential improvement of program by using tailor made facilities.

As with other organizations, the YMCA has considered the possibilities of a building. However, I personally feel that at this time a building of single denomination is not in the best interests of Brea youth. While it cannot be held as a "cure-all" for the existing situation, a community center is, I believe, a worthwhile project and deserving of the support of the townspeople. While it will be up to active club members to lead, ultimate responsibility of success or failure rests with people of Brea. I am eager to help.

Sincerely,
LYNN BLYSTONE

Drawing Winners
A list of winners of the drawings conducted by the Veterans of Foreign Wars and Auxiliary was released as follows:
TUESDAY—Electric Deep Fryer, donated by Western Auto, Patrick Spears of Brea.
WEDNESDAY—Duaiflex No. 4 Flash Camera, Arthur Harmon, Brea.
THURSDAY—\$10 merchandise order from Bob's Market, Mrs. H. W. Patterson, and a 8-inch Wading Pool, Pegge Donnelly, Arlington.
FRIDAY—Sheffield Stainless Steel Carving Set with six steak knives, donated by Rentz Furniture, Louise Beeman, Brea.
SATURDAY—Portable Barbecue, Mrs. Perry Pedicone, Brea; a Fibre Glass & Maple Bow from the A & A Archery in La Habra won by Gary Claydon, Brea; and the Harmony Homes drawing, a G. E. Electric Frying Pan, Mrs. Joseph Huffman, Brea.

FIELD TRIP TO KNOTT'S FOR BREA CHILDREN

On Wednesday, July 18, Laurel School Playground will be closed and the children will travel to Knott's Berry Farm for an afternoon of fun and adventure. Each child should bring 25c to help defray expenses of the trip. A Parent Consent slip must be on file at the school by Monday, July 16, for each child planning to make the trip. In charge of the arrangements are Playground Director Carl Berneker and assistant director Jean Flohr.

the Merchants Division of the "o" contest, introduces the winning sponsoring organizations are: the West, Optimists; Mrs. Shirrs. Lee was sponsored by the

Brea to Receive \$28,049.39 as Its Motor Fee Share

Robert C. Kirkwood, State Controller, today apportioned \$85,501,202 of motor vehicle license fee ("in lieu" tax) revenue deposited in the State Treasury between December 1, 1955, and May 31, 1956, to California's 326 incorporated cities and 58 counties. The \$42,750,601 distributed to cities this month was allocated on the basis of population and approximately \$4.78 per capita. Brea's share of the apportionment was \$28,049.39.

DECLARE DIVIDEND

California Bank's board of directors yesterday declared the regular quarterly dividend of 50 cents per share payable August 1 to shareholders of record at the close of business July 17.

New Elementary Board Holds First Regular Meeting; Shaffer Present

Group Votes to Purchase Hot Meal Facilities for Arovista School

First meeting of the Brea Elementary School Board for the fiscal year 1956-57 under the direction of newly elected chairman Herbert Barlow was held Tuesday night at the district administrative offices at the junior high.

First official duties were started by new trustees Mrs. June Hendricks and Mel Fuller. The group held a special meeting on July 2 to elect Barlow president of the board and Mrs. Hendricks clerk.

Also attending, besides member H. N. Winchel and Superintendent Vincent Jaster, was trustee Donald Shaffer who has been recovering from a several month-long illness. This was the first meeting for Shaffer since being hospitalized late in April.

One of the first items on the agenda concerned membership in the California School Board Association. It was voted to again join the association because of the benefits that have been derived during the Brea membership the past eight years.

The membership offers the local group the opportunity to compare their problems for solution as well as gain support for school legislation.

According to Jaster, the bud-

get, as accepted by the board, was tentatively approved by the county. Final approval will be given following a complete evaluation.

Both the elementary and high school budgets will be published July 25 in The Brea Progress. Hearing dates will be formally announced at that time. The elementary board is planning their budget hearing for August 1.

"Inquiries" Cost Money

Another item of business involved the technicality of whether work done on the men's rest room at Laurel School was repair work that could be accomplished by Clark Shoemaker, head custodian.

Because of "inquiries" of local plumbing representatives the board felt that rather than get involved over the use of a maintenance man instead of a union worker that they would obtain bids for the plumbing work needed.

The "inquiries" can cost the district as much as \$500 over what Shoemaker, already being paid by the schools, would have been able to do the job for.

This item could well be presented as a point of fact when the time comes to vote, next year, on a tax increase to continue the school program. Those worried now about their own "purse strings" add to the need for an increase.

It was decided to purchase a portable kitchen for the children at the Arovista School which will cost approximately \$1,400. The price includes the hot meal facilities, silverware, trays, cups, etc.

Bids were opened for an asphalt paving project at the new Arovista plant with the William Kirkland Co. of Covina submitting the low figure. The job will run just short of \$3,000.

Other topics discussed included the granting of a one-year maternity leave to Mrs. Jeanne Dyer; discussion over insurance coverage for school activities; and the approval of a request by Harold Carver, chairman of the City Park and Recreation Commission for use of a school bus for a field trip to Knott's Berry Farm, July 18.

PUBLIC IS INVITED

All patrons of Brea Elementary School district are invited to attend the next meeting of the Brea advisory education committee which will be held Monday, February 15, at 7:30 at the Laurel school, Max Dunn, chairman, said today.

"Porchlight Parade" Workers Collect \$463 For March of Dimes

Polio fighters in Brea struck another blow against infantile paralysis when they collected \$463 in their Porchlight Parade Tuesday night.

Ten members from the Kiwanis Club and Jr. Women's Club led the campaign with the able assistance of 24 school children. March of Dimes Chairman Ernest Brady directed the entire effort.

"The women in particular were very efficient because of experience gained last year. Most of the adult workers were repeaters from 1953 and they took in more money in less time in this latest drive," Brady declared.

Patrons of the Brea Elementary School District will be asked to vote on a bond issue which may total nearly \$745,000 at the annual school election in May. This was learned at a meeting Monday night in the Laurel School attended by representatives of various Brea organizations.

The group listened to a prediction of Brea's future growth by Realtor Ed Novell. It was told of the present school facilities and enrollment by Mrs. Mary Lemke, principal of the Laurel School. And the school board's estimate of the necessary building needed to meet Brea's growth was summarized by Les Slaughter, president of the board.

School Site Picked

It was explained by Vincent E. Jaster, district superintendent, that the school board is considering building four new classrooms at the Grammar School; a separate administrative unit to serve all schools and nine classrooms and a cafeterium at a new site. The location of the new site, which has been carefully studied by the board, is located just south of the new Clarkson tract on West Imperial.

According to school official figures, the present bonded indebtedness of the district is \$339,000. The remaining bonded ca-

capacity is \$745,966. The information continues to state that \$500,000 bonded indebtedness would cost approximately \$2 to \$5 in additional taxes for the average Brea home owner.

At the meeting Monday night the question for discussion was not, "should there be a bond issue," but rather "how much shall the issue be."

More Study Suggested

G. R. "Dick" Winder, representing Chiksan Company, suggested that more time and study be given to the school problem and that the future school needs be given more consideration so that the suggested bond election may be made a five-year plan rather than a probable two-year plan. Winder also said he would like to have time to consult with his associates before taking action to start a bond election at this time.

His suggestion was considered favorably and it was agreed that additional information would be secured and presented to the group at its next meeting Monday, February 15, at 7:30 p.m. at the Laurel School.

High School OK

Frank Hopkins, superintendent of the Brea-Olinda high school, was present and was asked to state briefly the high school picture. Hopkins said the high school facilities could accommo-

date about 500 students. At the present time the enrollment is 254. He said he felt that the high school would not need to consider a building program for at least five years.

Max Dunn was elected chairman of the group to be known as the Brea Advisory Education Committee.

Organizations Represented

Those present and the organizations they represented were: Max Dunn, Lions Club; Cy Clarkson and Ed Novell, Kiwanis Club; Mrs. R. C. Bilderbach, Senior Women's Club; Lindsey Stocks and Vic Guard, American Legion; Marlon Titcomb, Masons and Shaffer Tools; Ethel Eastham, Eastern Star; Mrs. G. R. Winder, Chamber of Commerce; Rev. Leslie Lowrey, Ministerial Association; G. R. Winder, Chiksan; Mrs. William Stanley, Mrs. J. Keller, Mrs. G. Hendricks and Mrs. A. Forkus, Brea Elementary P.T.A.; Frank Hopkins and Perry Wood, Brea-Olinda High School district; and Frank Hall, Brea Progress.

The following persons represented the elementary school district: Jean Dyer, Harold Johnson, Marvin Johnson, Helena Schwartz, Mary Lemke, Vince Jaster, Leslie Slaughter, Harry N. Winchel and Don Shaffer. Two architects were also present.

Pastor Resigns At Congregational Church Dinner

Rev. O. B. Gudmundsson, pastor of the Brea Congregational Church for the past six years, presented his written resignation to the members of the church at the monthly church fellowship dinner at the church last Wednesday evening.

Rev. Gudmundsson said that he was doing this with the best interest of the church in mind and according to the written resignation which is to become effective before March 1, 1955.

The resignation was accepted and immediately a resolution was adopted and unanimously adopted congratulating Mr. and Mrs. Gudmundsson for their successful work in the church and for the progress which has been made under their leadership.

Church officials said they have in mind to replace Rev. Gudmundsson but it is quite possible that they might wait until June when graduates will be available from a theology college.

Present plans for the church indicate purchasing a parsonage so that the residence now being used as a parsonage may be used for a Sunday School annex.

Newsmen Attend Press Open House At Beckman Plant

Members of the press and trade organizations were hosted by Beckman Instruments at a press review open house last Friday. A tour of the huge,

CITY ORDERS PURCHASE OF CAR FOR POLICE DEPARTMENT

Purchase of a new police car was completed by the city council when it met Monday night. The car, a 1955 Chevrolet, will be delivered in about three weeks by the Daugherty Chevrolet agency for a cash cost of \$1551.

An allowance of \$750 was made by Daugherty for a 1952 Oldsmobile which the city will trade in. Extra equipment on the new car will include heater, spotlights, oil filter and automatic transmission.

Car dealers present at the meeting were John Daugherty, J. W. Burch and J. Grey Korn-

bacher. Four bids were received on the police car purchase, and an offer of lease deal whereby the city would pay six and one-half cents a mile for use of a car was also considered.

The council did not accept the low bid on the police car. The low bid was \$1507 for a Pontiac.

One councilman expressed the opinion that the city would gain more in operating efficiency and trade in value with the Chevrolet. It was believed these savings would offset the initial cost difference in the two cars, the councilman stated.

Clearing of Trees Next Job at New School Site; Plans Being Readied

It was decided to advertise for bids for the removal of trees on the new 14.7-acre Arovista school site south of Imperial Highway when the Brea Elementary School District board of trustees met Monday night.

Architects Marsh, Smith and Powell are now working on the plans for Brea's third elementary school. It will consist of 16 classrooms, two kindergarten classrooms, cafeteria and multi-purpose room, offices, and complete playground and parking facilities.

The school site will be one of the most beautiful in the state, according to Vincent Jaster, elementary school superintendent.

It is expected that the contract for construction of Arovista

school will be let by April, 1955. Probable completion date is anticipated as November, 1955.

Turning to other business, the board of trustees hired two women as part time bus drivers, the first females ever hired for such a job in the district. Selected for the positions were Mrs. Ruth Ingalls and Mrs. Edna Makins.

Women bus drivers have a very commendable record in safely transporting school students, the board learned from the California Highway Patrol.

Meetings of the Brea Elementary Board will be held on the second Wednesday of each month in the future. They were previously slated for the third Monday of each month.

10 Turkeys Offered by Merchants

Ten free turkeys and many other valuable gifts will be given away by the merchants' division of the Brea chamber of commerce Friday night. The drawing of the gifts will be held at Daugherty's used car lot at 7 o'clock.

Tickets for the drawing may be obtained from practically any Brea merchant this week of charge. It is not necessary to make a purchase, simply ask for turkey tickets.

The list of merchants to part in the promotion is printed in an advertisement on the three of this week's paper.

According to the plans by the merchants' committee names will be drawn for turkey and the name first will be allowed to claim the key until Saturday noon that time the second name is eligible.

F & W Market Remodeling Work

Starting an extensive remodeling job, F & W Markets has had its newly-acquired market repainted on the inside.

On the inside, a new produce case has been put into use. The produce is being relocated in the store to make it convenient for service clerks.

Other changes will be made every day in the market to make it more pleasant place

CLIFFORD E. YATES A.I.A.
ARCHITECT

Arovista Building Will Provide 16 Classrooms

Ground will be broken next week for Brea's third grammar school, to be known as Arovista school, located at the south end of Arovista Avenue, it was announced this week by school Superintendent Vincent Jaster.

Contract for \$359,000

The contract for the school buildings, including 16 classrooms, 2 kindergarten rooms and office administration space, was let to Metcalf Construction company of Orange at a bid of \$359,000. Metcalf proved to be the low bidder after an error of \$11,000 was found in the bid of Viking Company.

Omit Cafetorium

Because the bids were much higher than the engineer's estimates it was agreed by the board that the cafetorium would be eliminated from present plans. This decision reduced building costs by \$100,000. Board members thought that since the school is in proximity with the new additions in that area that many of the school's pupils could go home for lunch. Or, if necessary, a

lunch wagon from the school system's other cafeterias might be able to serve the school until money will be available for the cafetorium.

Will Rush Work

Mr. Jaster said the work schedule will call for the school building to be completed in 180 working days, making the school available for occupancy by the beginning of the second semester.

Only One Entrance

Access to the school at the present time will be via Arovista Avenue, off Imperial highway. The school could also be reached by an extension of Fir street. This matter has been presented to City Administrator A. W. Studebaker for consideration.

It is quite possible that the city will cooperate with the school district in making plans to extend Fir street to the school property and thus eliminate the possible hazard of having Imperial Highway closed and blocking a rapid approach to the school in case of an emergency.

is to be on the extension of Walnut Street which is expected to be cut through the church property. This cut will make Walnut Street a continuous thoroughfare from Ash Street to the southern boundaries of the city, and will make the new church easily accessible from three directions. It is felt that the archi-

directly or indirectly help our children at Arovista.

AWARDED - Chet Kolb was awarded the PTA Service Award during Arovista School's 25th anniversary celebration. He is shown receiving a congratulatory kiss from his wife. (News-Times photo by Susan Goode)

"The PTA Honorary Service award is given annually to a person or persons who either... There is such a person at Arovista and that person is our Honorary Service Award recipient tonight. 'Having attended elementary school and high school in Brea, our recipient then spent many years in the Navy. After retiring from the service, he came to work for the Brea schools, and finally to Arovista 10 years ago, where his two children had attended. 'Many Arovista children over the years have enjoyed the results of his hobbies. He has shared his vast collection of sea shells from around the world with the youngsters at Arovista as well as sharing his collection of arrowheads. As a result of knot tying done in the Navy,

Emergency situations Brea city will respond

1. The Problem: Almost without exception, families and family members in the City of Brea are unprepared to handle the problems resulting from a major disturbance to their way of living. On the negative side we need to be better prepared to deal with natural and man-made emergencies. On the positive side, we can be much better prepared in areas of career development, financial management, physical fitness and socio-emotional and spiritual strength.

2. Our emergency plan was prepared in 1975. Major changes have taken place in Brea and in the county and state, since 1975, which are not reflected in this plan.

3. The potential for a major calamity increases with the continuing urbanization of unpopulated areas and with the advent of industrial processes which utilize hazardous materials. From the "City of Brea Emergency Plan," 1975, pg. 7.

4. Our city government itself, is unprepared - and will remain unprepared - to handle all of the possible disasters.

"The occurrence of an emergency or disaster creates unusual conditions that may impose suffering and hardship on individuals, and may overturn government."

"From 'Disaster Assistance Procedure Manual,' State of Calif. Office of Emergency Services, 1977, Introduction.

"The responsibility of warning our people and having them prepared weighs heavily upon us as a City Council. Our people need to learn more about how to prepare and cope.

"There are certain things you can learn and do that will help you get ready for, and cope with, almost any type of emergency."

"From 'In Time of Emergency,' U.S. Department of Defense, 1975, pg. 7.

Continued on page 3

Brea News-Times

The prohibitive cost of allowing the expression of an opinion is, that it is robbing the human race, generally, as well as the existing generation, those who dissent from the opinion, still more who hold that if the opinion is right, they are deprived of the opportunity of exchanging error for truth; if wrong, they lose what is almost of great a benefit, the clearer perception and truer expression of truth, produced by its collision with error.

— John Stuart Mill, in his essay 'Of the Liberty of Thought and Discussion'

Teenage Pregnancies continue to rise

"The rate of teenage pregnancies has continued to rise in Orange County," according to Gwenda Watson, chairman of the Coalition Concerned with Adolescent Pregnancy. Based on data released from the Orange County Human Services Agency, she noted that 12 of the 14 high school districts in the county registered more births to 1,000 teenage girls in 1979 than they had in 1977. Those school districts with little or no family life/sex education also had the highest rate of teen fertility.

Santa Ana Unified School District continued to top the list with a rate of 58 births per 1,000 teenage girls in 1979. Santa Ana registered 52 in 1977. Garden Grove is second with a rate of 24, up 6 births per 1,000 from 1977. Anaheim and Fullerton each have a rate of 23. Anaheim's rate increased by 1 and Fullerton is up 4 since 1977. Capistrano Unified School District is next with a rate of 20 births per 1,000 teenage girls in 1979.

Mrs. Watson states that parents, health professionals, social service workers and religious leaders are concerned with the serious health and social consequences of adolescent pregnancy. The statistics indicate the need for family life/sex education programs. Educators are aware that pregnancy is the leading cause of female high school dropouts.

At a recent meeting of the Coalition Concerned with Adolescent Pregnancy attended by teachers, parents and community leaders, Mary Steinman, a nurse with a clinician in a high school clinic program, told the audience how the problem was

Brea will respond

Continued from page 1
Department of Defense, Defense Civil Preparedness Agency, 1977, pg. 73.

II The Need Through models of citizen participation such as our Neighborhood Watch program, and the Civil Defense Program during WWII, we know that community based programs can work and accomplish much. The families and family members of the City of Brea have a need to be better prepared, and the people of our community have the resourcefulness to do something about it. We as a City Council need to take the initial action to bring together the needs and resources of the people.

"One of the vital protective resources of the community is people, especially leaders and trained personnel. There is need for volunteers to supplement the work of the existing staff of paid government administrators and employees in the day-to-day job of controlling possible peacetime hazards, in the complicated task of planning for disasters, and in the demanding assignment of meeting an emergency."

"In order to fill needed positions with trained volunteers, people with all types of backgrounds, skills and education must be located and motivated to actively support the emergency manpower needs of the government." From "Disaster Planning Guide," U.S. Department of Defense, 1975, pg. 39.

Specifically, some of our critical needs for a Family Preparedness Council are:

1. The "City of Brea Emergency Plan" (pg. 24) identifies a Disaster/Emergency Services Council — an advisory body to the City Council — as part of the city emergency organization. Presently, this council does not exist, other than through an ad hoc grouping of the city department head. We need qualified people in this community who can serve as this council. The Family Preparedness Council could also serve as the Disaster/Emergency Services Council.

2. The Orange County Disaster Preparedness office has no funds for the City of Brea, and couldn't do anything to

help if there were an emergency in Brea.

3. We do not have any areas in the City of Brea designated as shelters, nor are there any areas in the city prepared to function as shelters — as is outlined in our "Emergency Plan."

4. The City of Brea lacks an adequate network/media for communications. There is no newspaper, TV or radio which can reach a high percentage of our people. We need a people-to-people program to compensate for this inadequacy.

5. There are many examples from recent fires in the City of Brea which show us how unprepared we are to deal with massive movement of our people. We showed considerable technical competence, but lacked coordination, communication and consideration for human/emotional needs.

6. People of the City of Brea, in increasingly larger numbers, are showing the strains of:

1. Being unprepared for shifting job conditions.
2. The negative impact of life changing socio-economic conditions.
3. New and unique social problems.
4. Sudden emotional breakdowns in the family.

5. The need for release and being released which is resulting in more and more suicides and murder of children.
6. The increase of wife abuse — and the inability of police to get involved until the act has been committed.

Preparation to deal with many of these problems would constitute prevention of disasters.

7. The "City of Brea Emergency Plan" indicates on pg. 5 that: "Special task force organizations may be required to meet special situations;" and 2. "Informal citizen groups may spontaneously form to assist in recovery and should be effectively utilized." We need to be in compliance with these requirements. At present there is no mechanism or procedure whereby these two things could happen.

bureaucratic, manner — much of their program would be self-created and not imposed by the city council. Therefore, we can only design a sketch of what might take place once new bodies begin to function. There are, however, two types of solutions being sought:

1. Solution to the problem of talent in our community which is not being used; and
2. Solution to the problem of family preparedness for emergencies.

"Pressure on community leadership to accept accountability for delivery of services and leadership toward a more satisfactory quality of life has resulted in an increase of invitations from public and private leadership for citizens to serve on advisory committees, coordinating councils, monitoring panels, and to participate in available consultative conferences.

Professionals are still cautious about sharing power and offering further partnership in planning, decision making and action implementation, but we predict that the movement will develop major momentum in the next 10 years.

From "Building the Collaborative Community" by Eva Schindler.

Some specific activities which a Family Preparedness Council might undertake are:

1. Recommend ways of handling large numbers of people in times of fire/flood/earth quake emergency.
2. Design and distribute, and help people use, a family preparedness program including food storage and preservation procedures.

3. Survey, discover and prepare locations in our city which are adequate to serve as shelters and places of refuge during an emergency.
4. Prepare model emergency preparedness kits and distribute a list of contents — and help families maintain the rotate their basic emergency supplies.

5. Solicit volunteers and resources to help orient, train and prepare families to be better prepared for emergencies.
6. Conduct home visits to help with identifying and handling potential hazards and disasters, thus saving our firemen some time, and building and maintaining a program which would be prohibited if our only resource were our city

budget.
7. Prepare a list of resources and locations for emergency services.
8. Help achieve the major purpose of our new Civic Cultural Center by providing displays of survival kits and preparation materials, and conduct workshops on family preparedness.

9. Follow the model of the Neighborhood Watch Program by: 1. Creating attention to the problem of possible emergency/disaster; 2. Creating readiness on the part of families to deal with emergency/disaster; 3. Creating personal contact with families to provide real awareness of the problem; and 4. Motivation to do something about their own preparedness.

Additional ideas include collection of medical supplies and identification of available physicians, conditioning of families to act accordingly in time of disaster/emergency; preparing families for warning signals, etc.

IV Membership Selection for the Family Preparedness Council would be done according to the procedure used recently for selecting members for the city commissions. We would search and recruit for members of the Brea community who have demonstrated leadership and expertise and are willing to be of more service to the city.

The Direction/Support of the Family Preparedness Council would require some initial direction and support from the Brea City Council. This direction and support would need to be an articulation of our statement in the "Letter of Promulgation" signed by the mayor in the introduction of the "City of Brea Emergency Plan." I give my utmost support to this plan and urge each citizen of the city, individually and collectively, to do his share in the total emergency effort of the City of Brea."

Some things likely to be included in directing and supporting a Family Preparedness Council would be: A declaration in our belief in the need to be better prepared, to use the family as a base for preparation in the community, to utilize preparedness expertise from the community and to centralize the functions of emergency preparedness to the point of

WHY NOT COME TO S&S?

Carline Burke, residing in Anaheim Hills and working at the company's Anaheim Hills office, was asked why she chose S&S Realtors. Carline, a consistent Million-Dollar-plus producer had this to say, "It's very simple. S&S Realtors pays Top Commissions, and the company believes in its consistent, regular advertising program. Before coming to S&S I observed other brokers in the area and they consistently would cut back on their advertising when things got a little tough. Here at S&S we advertise continuously and promote the sales agent at every opportunity. My husband, Dave (also an S&S Realtor Associate), and I believe we need to be on a winning team for our success in real estate, and S&S Realtors is truly a winner in every sense of the word."

If you, like Carline and Dave, want to be a winner, call S&S Realtors for a confidential interview or call Carline or Dave and find out what's going on at S&S. The company also sponsors a free licensing school as well as a fast-start training program.

FREE INVESTMENT WORKSHOP

WHEN: Tuesday, March 10, 1981, at 7:30 p.m.

WHERE: S&S Investments, 895 E. Yorba Linda Blvd., Suite E (Second Floor), Placentia

WHO: Moderator - Gordon Brindell, Broker Associate

BURRILL NAMED AREA CHAIRMAN FOR GOP EVENT

Frank Burrill of Chiksan Company has been named as the general ticket chairman for the Brea area for the County's largest Republican event of the year, a \$50-a-plate fund-raising dinner to be held September 14 at 7:30 p.m. in the Balboa Bay Club.

According to General Chairman Robert S. Barnes, the featured speaker of the evening will be Congressman Charles A. Hal-

REP. CHARLES A. HALLECK (Hoosier to Speak)

leck of Indiana. Representative Halleck, as majority leader of the 83rd Congress, has been dubbed the "ball carrier" for the Eisenhower legislative team on Capitol Hill.

Twelve hundred countians are expected to attend the event and lend their support to the GOP financial campaign being carried out by the Orange County Republican Central Committee.

Willard Hanzlik, Assembly candidate from the 75th District, has been named by Barnes as Honorary Chairman for the dinner.

Brea Navy Men Graduate From Recruit Training

John W. Roberts, son of Mr. and Mrs. Ira W. Roberts of 245 S. Redwood, Larry F. Shaw, son of Mr. and Mrs. Edwin A. Cooke of 115 S. Flower, and Donald R. Walter son of Mrs. Lucille F. Burton of 255 S. Poplar, all of Brea, graduated from recruit training August 25 at the Naval

Dedicate Arovista Friday

When the Brea schools open for class Tuesday, September 11, there will be new doors opening with the completion of the modern Arovista School.

Official dedication ceremonies will be conducted at the new plant on Friday evening, September 7, at 7:30 with an open house following. The general public is invited to attend the dedication program and to visit one of the most modern, well-equipped schools in the nation.

Participating in the dedication program will be Superintendent Vincent E. Jaster who will present the school to members of the board of trustees. Accepting the addition to the Brea elementary district on behalf of the city will be board Chairman Herbert E. Barlow, Clerk of the board, Mrs. June Hendricks, and board members H. N. Winchel, Don Shaffer and Melvin Fuller.

Also participating in the short program will be members of the Brea Boy Scouts.

Rural Route Error Noted

A statement appearing in the August 29 issue of The Brea Progress which read, "any mail addressed to the Rural Route is undeliverable and will have to be destroyed as per Postal Regulations," pertains only to third class permit holders.

According to word received by Brea Postmaster Leonard DeGroff, the only mail that will be undeliverable after the discontinuance of the Rural Route will be third class Permit matter "shoppers" that are addressed "Box Holder, Rural Route, Brea." This permit matter must be addressed the same as other city routes as follows, "Occupant, number and street, Brea."

All other mail of all classes will continue to be delivered on the new mounted route even if it continues to carry the old Rural Route address.

Fullerton Offers Complete Night School Program

Great interest is being shown in the course offerings in the Evening Junior College and Evening High School according to John N. Reid, principal. During the first three days of registration 936 enrolled in one or more classes.

Courses are being offered in such fields as agriculture; business education; industrial education—trade preparatory and trade-extension; fine arts and crafts; health and physical education; home making education; language and speech arts; mathematics; science; and social civic education including citizenship.

Reid stated that many courses may be taken for college credit. Courses that lead to a high school diploma are also available, and an increasing number of adults who for one reason or another did not receive high school diplomas at an earlier age are now enrolling at Fullerton Evening High School and are working toward their diplomas.

While registration in many classes is open throughout the semester, it should be understood that to obtain credit, students must be registered and in attendance not later than the start of the second week of classes.

School Luncheon Held at Home of Superintendent

Administrators and faculty of Brea elementary schools had a noon luncheon at the home of Superintendent Vincent E. Jaster, 1015 E. Elm, on their opening day of meetings and workshops, September 4.

Previously Jaster had introduced new teachers and outlined educational policies in a morning school meeting.

Their meetings will continue through September 7.

Board Rejects Nine-Acre Site For New School

The Elementary School board last week turned down a chance to buy for \$9000 nine acres of land from Union Oil Co to be used for a new elementary meeting jointly Wednesday night with the city Council, board members gave their objections to buying the site, which is located adjacent to the proposed new park on the west end of Elm. Their objections were:

1. The state requires that elementary schools be no nearer together than three-fourths mile, and the new site would be only one-half mile from Laurel School.
2. Road easements demanded by the seller would cut the size of the area down too much.
3. There would not be enough level ground for use as a playground.

The city was to have made the actual purchase with the school board to buy it in turn from the \$210,000 school bond issue voted in last September.

The city wanted to buy an unusable portion of the land for a community building and parking area. Mayor McCart said that plans are going ahead for the land to be purchased by the city providing there is enough interest in it.

Mrs. Dean Millen, Nancy and Bob, spent a few days last week relaxing on the beach at Belmont Shores, while visiting Mrs. Millen's mother, Mrs. Dorothy Scott.

Dr. and Mrs. John Buck, Judy, David, and Douglas are leaving Saturday morning on a camping trip to Red Meadows in the Sierras above Bishop. They will return July 5.

Mrs. Howard Bowers, 339 South Flower, had as her overnight guest one night last week, her cousin, Mrs. Ruth Smith of San Diego. Mrs. Smith was enroute to Big Bear for a vacation.

EXPECTING THE UNEXPECTED

It is the unexpected that causes automobile accidents, warns the National Automobile Club. If you would be free from accidents, drive carefully and learn to expect the unexpected.

**Union Oil Co.
Given Bid for
School Site Land**

The city has submitted a bid of \$7500 to the Union Oil company for 8½ acres of land adjacent to the new city park to be used as an elementary school site.

Meeting with elementary school officials last Wednesday, councilmen said that the city had no use for the land if it was not wanted for a school site.

Jerry Wasson, president of the school board, and V. E. Jaster, superintendent of elementary schools, said that because State law requires level ground for a school site, some of the ground would be useless to them. The price per acre of the usable area, therefore, would be higher than the price per acre of the entire area because of the waste.

A lower bid than originally contemplated was prepared by councilmen.

The city will use a small part of the land unusable for school purposes for a Youth building and a Boy Scout building.

School officials also protested a proposed road which will be put through to the site of these two buildings.

Remarking that many cities have put off buying land for schools until they have to pay exorbitant prices when new schools must be built because of city expansion, the school officials decided to avoid that eventuality and to buy the land from the city immediately upon acquisition.

Union Oil company officials had asked the city to bid for the property, located at the end of Elm between Elm and Fir.

**FIRE SWEEPS
CARBON CANYON
FOR THIRD TIME**

Fire swept Carbon Canyon brushland Wednesday for the third time this month. More than 20 acres were burned off on the Standard Oil lease just South of the Gaines ranch. No property was destroyed.

Alarmed Carbon Canyon residents have started a campaign to have the high fire-hazard district posted as a closed area. Signs are especially needed at the Orange County approach to the canyon, warning motorists against smoking or lighting camp fires. Signs have been erected at the San Bernardino entrance to the area.

The fire was discovered about noon Wednesday a short distance from the Gaines ranch.

Wed Aug 10, 1955

The public is invited to a groundbreaking ceremony for the new Cronista public school building at the school site, south of Cronista street Thursday morning, August 11, at 9:30 o'clock. Vince Jaster, superintendent of the district, says there will be a gold plated shower for any of the patrons who want to help start digging.

only?

AROVISTA SCHOOL

The Union Oil Company purchased 1200 acres from the Stearns Ranch Company in 1894 and began producing oil. Additional lands were purchased from time to time. The property where the Arovista School is located was purchased by the Union Oil Company after the disastrous 1926 Union Oil tank farm oil fire that destroyed considerable acreage. The 80 acres of walnuts north of Imperial Highway between Berry Street and Puente Street, known as the Sievers property, was damaged to the extent that Union purchased the land instead of paying damages.

Because Union Oil owned considerable land suitable for citrus, they and the Bastanchury family entered into a lease agreement so that citrus could be planted. This joint venture was known as the Union Citrus Orchards. When the Bastanchury family overextended their ability to operate the property, they lost the lease to the Times-Mirror Company of Los Angeles. The Times-Mirror operated the orchards until December, 1940 when the orchards were turned back to the Union Oil Company causing Union to liquidate the orchards. This was done by bulldozing out trees, leasing or selling the land, so that the entire 2500 acres of the citrus division was terminated on December 31, 1941.

One of the transactions was selling 460 acres and leasing 60 acres to Brea Groves, Inc. Brea Groves took title to the property December, 1941. The 10 partners involved in this transaction acquired an undivided interest in the property. However, it was the desire of the partners to divide the acreage into individual ownerships. This was started early in 1942. In order to distribute and furnish irrigation water to the various groves it was necessary to form a mutual water company. The water company needed a name and several were suggested. Mr. C. E. Dunbar, a partner, liked the name of his cottage in Laguna Beach, Arrow-Vista, probably for the view it afforded. To satisfy the water company directors, this name was shortened to "Arovista", and was officially filed with the Secretary of State as the Arovista Mutual Water Company on June 23, 1942. The Company office was located just west of Berry Street on Imperial Highway.

As part of the apportioning to individual ownership, five persons were deeded an undivided interest in the property south of Eadington Drive and ~~west~~^{east} of Puente Street to become a partnership known as the Loma Ranch and consisting of 45 acres of citrus and 30 acres of unplanted barranca land. The Loma Ranch was later divided among its partners. Mr. William L. Houghton, one of the partners received approximately 14 acres as his portion. This property was later sold to Mr. Robert L. Brokaw who in turn eventually sold to the Brea School District where the present Arovista School is located.

Of historical interest, Mr. Brokaw was the brother of Harold Brokaw who acquired the patent rights to the Hass Avocado and received a royalty on the bud wood sold. The Brokaws have done much to promote the avocado industry. Mr. Robert Brokaw's son, Hank Brokaw, is very active in the industry doing research and operating a large nursery in Ventura County.

AROVISTA SCHOOL

The Union Oil Company purchased 1200 acres from the Stearns Ranch Company in 1894 and began producing oil. Additional lands were purchased from time to time. The property where the Arovista School is located was purchased by the Union Oil Company after the disastrous 1926 Union Oil tank farm oil fire that destroyed considerable acreage. The Brokaws have done much to promote the avocado industry. Mr. Robert Brokaw's son, Hank Brokaw, is very active in the industry doing research and operating a large nursery in Ventura County.

merce. The meeting will be held at the city hall at 7:30.

All members desiring to vote on that night will be required to have at least a portion of their dues paid. Dues are one dollar per month.

At its meeting on Wednesday, March 10, the JC group appointed several committees. A long range plan for the development of a youth center in Brea was adopted.

In the immediate future, the group decided to paint warning messages on the sidewalks for the pedestrians of Brea.

The line, which will run to a point 300 feet east of Puente Av-

Board Approves Purchase of 14 Acre School Site

School board members voted Monday night to purchase a 14-acre site northwest of the city park for the construction of a new elementary school here.

Purchased from the Clarkson Realty Company, the site will cost \$3,150 per acre or a total of

\$46,399.50 for the 14.73 acres.

Superintendent Vincent E. Jaster said the area is a perfect location for a new school since it will be in the middle of several planned subdivisions here.

Purchase of the acreage is contingent on the passage of a \$750,000 bond issue to be placed on the May 21 ballot.

Location of the new school will be on an extension of First Street a quarter of a mile south of Imperial Highway.

The board also voted to construct four new classrooms, boys and girls shower rooms and two tennis courts at the present school site. It was decided not to construct an administration unit that would cost \$50,000.

Plans are now being drawn for the additions and if the bond issue goes through, building is planned in December thus ending the possibility of half-day sessions next year, Jaster explained.

Park Board

Members of the new park and recreation commission will meet at the city hall Tuesday night at 7:30, according to Chairman Bill McCarthy. The public is asked to attend these meetings, McCarthy said.

The Girl Scout officials and members shown above appeared at the Kiwanis Club meeting Friday, March 19, to explain the value of the Scouting program to the different age groups. Pictured, left to right, front row: Julie Bouchier, Minna Joy Winder, Betty Meeder, Mary Ann Patterson, Peggy Ann Crow, and Christie McReynolds. In the back row left to right: Ed Novell, Kiwanis president; Phyllis Travis, Shirley Bathe, Mrs. Ann Meeder, Mrs. Louise Patterson, Mrs. Helen Carraige, Mrs. Lavinia Knight and Dick Winder, program chairman of Kiwanis.
